

EuraCOM BlueBox[®]

Mobile telephony & fixed phone line simply connected!

The perfect communication solution:

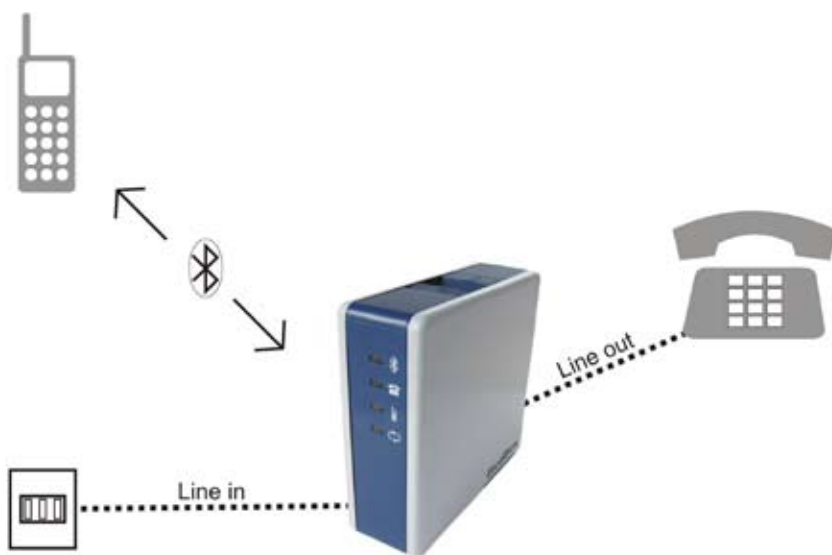

The EuraCOM BlueBox[®] handles incoming and outgoing calls of fixed phone line and GSM network. Optionally you can make calls via GSM network by using your existing devices without an additional SIM card. It doesn't matter whether you have a big button phone, a DECT base unit or a PBX: Future you can use features like Transfer, Hold or Conference Call on your mobile, too. Protect you against feared mobile emissions or avoid signal fluctuations without giving up mobility.

EuraCOM

Technics • Innovation • Future
M a d e i n G e r m a n y
